Subject: Report on Restraint and Seclusion in Scotland's Schools - Clackmannanshire statement

Nick, I understand that Education in Clackmannanshire has been in touch to explain that we did not receive the original instruction to provide a statement to the Commissioner in response to the Report. It would appear that emails are not being received from CYPCS.

I am pleased to now be able to provide our statement below.

To the Commissioner for Children and Young People

Clackmannanshire Education Statement in response to the recommendations in the Report " Restraint and Seclusion in Scotland's Schools"

We have reviewed the full report and Executive Summary and can confirm that we have all the protocols, guidance, systems and processes, and training already in place in line with the recommendations in the report. We will continue to monitor and quality assure our arrangements on a regular basis.

Thank you.
